

2506-674

Republic of the Philippines
Department of Education
REGION I
SCHOOLS DIVISION OF VIGAN CITY

Advisory No. 43, s. 2025

June 17, 2025

In compliance with DepEd Order (DO) No. 8, s. 2023

This advisory is issued not for endorsement per DO No. 28, s. 2001,
But only for the information of DepEd Officials,
Personnel/staff, as well as the concerned public.

CALL TO JOIN IBM SPSS TRAININGS

This is in reference to **DepEd Regional Office I Advisory No. 63, s. 2025** titled "*Call to Join IBM SPSS Trainings*", conducted by the Strategic Research and Development Center, Inc. These are series of trainings on IBM SPSS and others which will be conducted via Zoom platform on June 13, 23-25, 26-27, 2025.

The training aims to provide hands-on learning experience with IBM SPSS Statistics, practical case studies in research and industry applications, boost ability to visualize and analyze complex relationships in data, and give importance to academic research, business analytics and evidenced-based decision-making.

Target participants of these trainings are teacher-researchers and non-teaching staff of this division, including the private elementary and secondary schools and other educational institutions.

Participation of public and private schools shall be on **VOLUNTARY** basis and in compliance with the provisions of DepEd Order No. 12, s. 2025 titled "*Multi-Year Implementing Guidelines on the School Calendar and Activities*" and DepEd Order No. 9, s. 2005 titled "*Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*".

CALL TO JOIN IBM SPSS TRAININGS

The Strategic Research and Development Center, Inc. shall conduct a series of virtual trainings on IBM SPSS and others via Zoom platform on June 13, 23-25, 26-27, 2025.

The activity aims to provide hands-on learning experience with IBM SPSS Statistics, practical case studies in research and industry applications, boost ability to visualize and analyze complex relationships in data, and give importance to academic research, business analytics, and evidence-based decision-making.

Teacher-researchers and Non-Teaching staff of the Department of Education from the regional and schools division offices, including public and private elementary and secondary schools, attached agencies of the department, and other educational institutions, are invited to participate in the activity on a voluntary basis.

Participation of public and private schools shall be subject to the no-disruption-of-classes policy stipulated in DepEd Order No. 9, s. 2005 entitled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith.

Attention: Mr. Tolentino Aquino

Department of Education - Region I

Dear Mr. Aquino,

Hello!

Whether it's sunny skies or rainy days, June is the perfect time to power up your skills and think like a true data analyst!

We're excited to invite you to our June 2025 Virtual Trainings—a carefully crafted series designed for professionals, researchers, and analysts ready to take the next leap with IBM SPSS and beyond.

IBM SPSS Training for Researchers | 3,500 pesos per pax
June 2-3

Learn the basic function of IBM SPSS and how to systematically present your data. Also, learn the assumptions of many statistical techniques and their underlying concepts.

Qualitative And Quantitative Data Analysis In-Depth Seminar Workshop | 4,500 pesos per pax
June 4-5 & June 9-10

Analyzing qualitative data may be challenging for many researchers. The qualitative part of this workshop aims to educate participants in using various methods in analyzing open-end data. The quantitative portion of this workshop will discuss and review the foundation of basic and inferential statistics. A strong emphasis on the difference between parametric and non-parametric tests.

Applying Basic Statistical Analysis Using IBM SPSS | 2,500 pesos per pax
June 13

This training offers the participants a solid understanding of essential statistical techniques using IBM SPSS, including data measurement, frequency distributions, descriptive statistics, crosstabulations, handling multiple responses, comparison of means, and correlation and regression analysis, enabling them to apply these techniques effectively to real-world data problems.

Fundamentals of Market Research | 5,500 pesos per pax
June 17- 20

The main objective of this seminar-workshop is to impart the art of qualitative (mainly FGD) and quantitative data analysis. The tools that the lecturers will present will enable participants on how to conduct market research. The lecture will empower participants towards conducting market research.

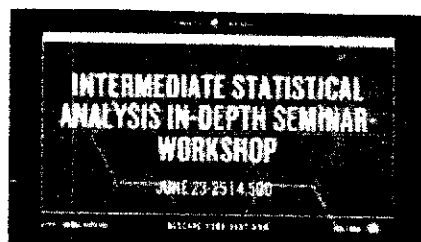

Why attend this Training?

- ✓ Hands-on learning experience with IBM SPSS Statistics
- ✓ Practical case studies in research and industry applications
- ✓ Boost your ability to visualize and analyze complex relationships in data
- ✓ Essential for academic research, business analytics, and evidence-based decision-making

Included in the training fee are a temporary license for IBM SPSS Statistics, a digital seminar kit, digital certificates, and 90-day exclusive access to the webinar recording (viewing only, no download). Group discounts are available. Don't hesitate to reach out with any questions. We're eager to embark on this learning journey with you!

Intermediate Statistical Analysis In-Depth Seminar-Workshop

June 23 - 25, 2025 | 4,500 pesos per pax

Our main objective is to impart the practice and art of statistical analysis and build a clear foundation and understanding of how participants may utilize statistical tests that will be presented and discussed during the seminar-workshop. Also, will introduce parametric tests, non-parametric tests, regression analysis, and complex statistical analysis. By the end of the seminar-workshop participants will easily distinguish which statistical test will help solve their research problem. Assumptions, applications, theory, and practical examples will be used and discussed in this workshop.

RESERVE A SEAT

Time Series And Forecasting Using IBM SPSS

June 26-27 | 4,000 pesos per pax

This course gets you up and running with a set of procedures for analyzing time-series data. Learn how to predict using a variety of models which take into account different combinations of trend, seasonality, and prediction variables. The Expert Modeler features in IBM SPSS Forecasting will be covered in this course. Also, will emphasize the graphical display of your results so you can visualize your forecasting model.
