Catch the Brilliant Minds Behind GAIN Masterclass 14!

AI is transforming how we research, innovate, and make decisions—and this November 14, 2025, we're bringing together a powerhouse lineup of speakers who are redefining the future of knowledge creation across industry, government, and academe.

Each session dives into real-world applications of AI—from systematic reviews and machine learning in health sciences to agentic AI models that think, decide, and collaborate. Whether you're an industry innovator, policymaker, or a researcher, this masterclass will equip you with the tools to make your research faster, smarter, and more impactful.

Here's what's in store:

Session 1 — AI for Systematic Reviews, Organizing, Meta-Analysis, and Publications

Description: Explore how AI streamlines complex reviews, organizes data, and delivers publication-ready insights across sectors.

Speaker: Dr. Giovanni De Jesus Milanez

Dean of Medical Technology, South SEED LPDH College

Session 2 — Applied AI and Machine Learning for Health Science Research

Description: Learn how AI and ML are revolutionizing health science—turning complex biological data into breakthroughs in healthcare.

Speaker: Dr. Charliemaign Stanley Cruz, Pharmacy Program Chair, Mapúa University

Session 3 — Thematic Analysis with Free and Subscription-Based AI Tools

Description: See how AI-powered tools uncover patterns and insights from qualitative data—saving time and amplifying research depth.

Speakers:

Dr. Melva Diamante, SGEN Research Director / Past VP, Memorial Sloan Kettering Cancer Center, USA

Ms. Kimry Danielle Gonzales, Associate Director, LPU – Center for Research and Development

Session 4 — Current Research: Adapting to New Realities

Description: Discover how professionals can stay relevant and impactful amid shifting technologies, policies, and research demands.

Speaker: Dr. Ryan Ebardo, Assistant Dean for Research and Advanced Studies, De La Salle University

Session 5 — AI-Powered Sourcing, Sorting, Organizing and Research Summary Template in 10 Minutes

Description: Research that once took weeks can now be done in minutes—discover how AI can revolutionize how you gather, sort, and synthesize data.

Speaker: Mr. Daniel Steel, Director of Strategy and Partnerships, Southville Foreign University

Session 6 — Agentic AI for Deep Research in the Government, Industry, and Academe

Description: Explore the next frontier of AI—Agentic AI systems that act as intelligent collaborators, driving deeper, faster, and smarter research outcomes.

Speaker: Mr. Rex Wallen Tan, General Manager, Princeton Assessments and Training, Inc.; CHED Technical Committee Member; TESDA Research Consultant

Don't miss this transformative learning experience—where innovation meets intelligence.
