

Republic of the Philippines
Department of Education
 REGION I
 SCHOOLS DIVISION OF VIGAN CITY

ADVISORY NO. 128, s. 2026

14 JUL 2026

In compliance with DepEd Order (DO) No. 8, s. 2013
 The advisory is issued not for endorsement per DO 28, s. 2001,
 but only for the information of DepEd officials,
 personnel/staff, as well as the concerned public.

**INVITATION TO THE 6TH NATIONAL SCIENCE AND ENGINEERING FAIR
 PHILIPPINES (NSEF) 2027**

In reference to the letter from National Science and Engineering Fair Philippines (NSEF) Organizing Committee and STEM Hub Global, this office disseminates the conduct of the 6th National Science and Engineering Fair Philippines (NSEF) 2027 at UST-Angelicum College Quezon City on February 20-21, 2027.

The said activity aims to showcase outstanding scientific research events, dedicated to showcasing the outstanding scientific research, engineering innovations, and creative discoveries of Filipino students open to elementary, secondary and collegiate institutions.

Attendance of the participants shall be **VOLUNTARY** subject to DepEd Order 9, s. 2005 titled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance therewith, and no-collection policy as stipulated in the Section 3 of Republic Act No. 5546.

For any concerns, please contact Janine Fernandez of STEM Hub Global, at 0976-669-6052 or through email at info.stemhubglobal.com.

The Schools Division Superintendent

Department of Education

Dear Sir/Madam,

Greetings of peace and excellence!

The **National Science and Engineering Fair Philippines (NSEF) Organizing Committee** and **STEM Hub Global** cordially invite your school to participate in the **6th National Science and Engineering Fair Philippines (NSEF) 2027**, to be held on **February 20–21, 2027**, at UST-Angelicum College, Quezon City.

The National Science and Engineering Fair is one of the country's premier research events dedicated to showcasing the outstanding scientific research, engineering innovations, and creative discoveries of Filipino students. The event brings together young researchers, educators, school leaders, industry partners, and research advocates from public and private schools across the Philippines in a celebration of innovation, scientific inquiry, and academic excellence.

This year's fair is expected to gather approximately **1,000 participants** representing elementary, junior high school, senior high school, and collegiate institutions from different regions of the country.

More than a competition, the NSEF provides students with valuable opportunities to:

- Present their research projects before a national audience of educators, researchers, and fellow student innovators.
- Receive constructive feedback from experienced judges and professionals.
- Exchange ideas with fellow young researchers from across the Philippines.
- Develop confidence in scientific communication, critical thinking, and research presentation.
- Inspire future careers in science, technology, engineering, mathematics, and innovation.

We warmly encourage your institution to send student researchers, research advisers, and school representatives to become part of this meaningful national gathering. Your participation will not only recognize the hard work of your students but will also strengthen your school's culture of research, innovation, and academic excellence.

Why Participate?

Participating schools will enjoy the following benefits:

- National recognition for student research and innovation.
- Opportunities to network with researchers, educators, and STEM advocates from different regions.

- Exposure to hundreds of research exhibits, engineering projects, and innovation showcases.
- Professional learning opportunities for teachers and research advisers.
- Inspiration for future research initiatives and STEM programs within your institution.
- Certificates and awards recognizing outstanding research and innovation.

The National Science and Engineering Fair continues to serve as a platform where young Filipino researchers transform ideas into solutions that address real-world challenges while promoting creativity, scientific excellence, and nation-building.

We sincerely hope your school will join us in inspiring the next generation of Filipino scientists, engineers, innovators, and research leaders.

For registration, event guidelines, and additional information, please contact:

We look forward to welcoming your students and educators to the **6th National Science and Engineering Fair Philippines 2027** as we celebrate innovation, excellence, and the limitless potential of Filipino youth.

Thank you for your continued commitment to advancing science and research education.
