PROGRAM MATRIX

National Training on Campus Security Management and Risk Assessment

Theme: Strengthening Safe, Secure, and Resilient Educational Institutions through Effective Campus Security Management

Description: Educational institutions are expected to provide a learning environment where students, faculty, staff, and visitors are protected from both natural and human-induced hazards. With the increasing occurrence of security incidents, violence, emergencies, cyber-related threats, and disasters, schools must establish comprehensive security systems that promote prevention, preparedness, response, and recovery.

The **National Training on Campus Security Management and Risk Assessment** is designed to equip school leaders, teachers, campus security personnel, DRRM coordinators, and education stakeholders with the knowledge, practical skills, and strategic approaches necessary to strengthen campus security and safety management. The program emphasizes security planning, risk assessment, emergency preparedness, crisis response, physical security measures, and collaborative security management aligned with national policies and global best practices.

Upon completion of the training, participants will be able to:

- Assess campus security risks using practical assessment tools.
- Recommend appropriate security measures for educational institutions.
- Improve emergency preparedness and incident response capabilities.
- Strengthen coordination among school administrators, security personnel, and local authorities.
- Design practical security improvement initiatives for their schools.

Duration: 1 Day (8 Hours)

Platform: Zoom Meeting

Schedule: 8:00 AM – 5:00 PM

Date of Training: November 7, 2026
