Education Program Supervisor for Mathematics

Dear Regional Director Cariño,

The Gokongwei Brothers Foundation (GBF) remains committed to advancing STEM education through GBF Class Builder. This Term 1 of SY 2026–2027, we have expanded our reach to **8 regions, 49 divisions, and more than 6,028 schools nationwide, engaging over 44,160 teachers**—a testament to the strength of our partnerships and shared commitment to improving education in the Philippines.

This school year also brings an exciting new Class Builder experience: a **more user-friendly platform** and a **richer Teacher Guide** designed to make class preparation easier while providing stronger support for teachers' content mastery and teaching practice.

To help us further improve the program, we will conduct the **Term 1 Feedback Survey among Grade 1–8 Mathematics teachers** from identified schools under your division, **as well as GBF Class Builder Leads and SDO education leaders (principals and SDO representatives)**. The survey will gather feedback on the orientation, platform and Teacher Guide experience, student resource materials, program implementation, monitoring, and support.

We respectfully seek your support in issuing a memorandum encouraging all identified participants to complete the survey **on or before September 4, 2026**. Your support will help us make GBF Class Builder an even more responsive and impactful partner to teachers and schools.
