Republic of the Philippines
Department of Education
REGION I
SCHOOLS DIVISION OF VIGAN CITY

Advisory No. 213, s. 2026 10 NOV 2026

In compliance with DepEd Order (DO) No. 8, s. 2023
This advisory is issued not for endorsement per DO No. 28, s. 2001,
But only for the information of DepEd Officials,
Personnel/staff, as well as the concerned public.

INVITATION TO THE 2026 NATIONAL YOUTH SCIENCE, TECHNOLOGY, AND ENVIRONMENT SUMMER CAMP (NYSTESC)

The **Philippine Society of Youth Science Clubs, Inc. (PSYSC)**, a premier student-led organization that promotes the public understanding of science, technology, and the environment, shall be conducting the annual four-day event 2026 National Youth Science, Technology, and Environment Summer Camp (NYSTESC) which will be held at La Virginia Leisure Park and Amusement Resort, Batangas on December 6 - 9, 2026.

This year's theme, *"XENORYX: Reawakening the Roots of Tomorrow's Ecosystem"*, focusing on the field of Environmental Engineering, is open to high school students from Grades 7 to 12, teachers, science club advisers, and coaches nationwide.

Attendance of the interested participants shall be voluntary and in accordance with DepEd Order No. 43, s.2020 (Omnibus travel guidelines for all personnel at the Department of Education) and DepEd Order No. 9, s. 2026 (Guidelines on the Implementation of the Three-Term School Calendar in Basic Education).

Vigan City - NYSTESC 2026 - Request for SDO Endorsements.pdf;

You don't often get email from nystesc@psysc.org. Learn why this is important

Greetings from the Science Clubbing Movement!

The **Philippine Society of Youth Science Clubs, Inc. (PSYSC)** is the premier student-led organization that promotes the public understanding of science, technology, and the environment. For over 55 years, PSYSC has been upholding its thrust by conducting nationwide activities that encourage the youth to participate in the science clubbing movement, enabling them to take action in the fields of science and technology in pursuit of national progress.

This year, PSYSC is proud to conduct the annual four-day event **2026 National Youth Science, Technology, and Environment Summer Camp (NYSTESC)** with the theme "**XENORYX: Reawakening the Roots of Tomorrow's Ecosystem**", focusing on the field of Environmental Engineering. Since the original August 4 - 7 schedule falls under the Instructional Block, NYSTESC will now be held on **December 6 - 9, 2026 at La Virginia Leisure Park and Amusement Resort in Batangas**. The event is open to **high school students from Grades 7 to 12, teachers, science club advisers, and coaches nationwide**.

Given this, we are humbly asking for your support through the issuance of a **memorandum and/or advisory** to further disseminate information about the event to the schools under your jurisdiction. Attached to this email, you will find a formal letter detailing the specifics of our proposed event, including its objectives, schedule, and the activities we plan to conduct. We believe that with **DepEd's endorsement**, we can reach a wider audience and ensure the successful implementation of this educational initiative.

Should you require additional documents, you may reach us through this email or through the contact details indicated in the letter; we would be more than happy to fulfill them.

Thank you very much and more power!

VILMA D. EDA
Schools Division Superintendent
DepEd Region 1 - Schools Division Office of Vigan City

Dear Superintendent Eda,

Greetings from the Science Clubbing Movement!

For over 55 years, the **Pambansang Kapisanan ng mga Kabataan Samahan na Agham (PSYSC), Inc.**, the first and largest umbrella organization for science clubs in the Philippines, has been continuously working in delivering quality programs and activities to elementary and high school science enthusiasts across the nation to promote the core thrust of the organization, the public understanding of science, technology, and environment (PUSTE).

This year, the PSYSC will host the **National Youth Science, Technology, and Environment Summer Camp (NYSTESC)** with the theme, **XENORYX: Reawakening the Roots of Tomorrow's Ecosystem**. The event will take place on **December 6 to 9, 2026.** This event is an annual four-day event consisting of a lecture series by distinguished experts on a selected field in Science and Technology, interactive workshops for hands-on learning, exposure trips, and other fun-filled activities. The event is open to **Junior High School and Senior High School Students, teachers, science club advisers, and coaches nationwide**.

NYSTESC is an event designed to give participants a thorough understanding of a selected field of science. The event features a series of lectures from distinguished experts, interactive workshops tailored to various learning styles, and opportunities for field-based learning. Through these activities, the event aims to promote the participants' interest in the chosen scientific field, inspiring them to explore career paths and opportunities in its multidisciplinary areas. Furthermore, the event fosters passion for STEM and encourages camaraderie among science clubbers from diverse cultures, helping to cultivate leadership skills and teamwork. This year, the focus is on **ENVIRONMENTAL ENGINEERING** — empowering future innovators to address critical environmental challenges through a series of expert-led lectures and hands-on activities that turn engineering ideas into sustainable solutions.

To help us reach more schools within your division to help us reach more schools within your district, we would greatly appreciate an endorsement of the event from your office, which we may include in our communications with the schools we will be contacting. We have already secured a National Advisory from the DepEd Central Office as support for this initiative. Kindly find the document attached for your reference.
